#### ABOUT THE COVER

The cover used for this program is a reproduction of a rare Currier & Ives print, recently acquired by the Insurance Company of North America for its historical collection at the head office in Philadelphia.

We are proud to have obtained the use of the print for the Fire Department. . . . . We are also proud to represent the Insurance Company of North America, the oldest fire insurance company in the United States — founded in 1792, when Washington was President.

## ASSOC. MEMBERS

NOTE: An Associate Member is not necessarily an inactive member, though some are old-timers who thus maintain their loyalty to the Department after having left the Borough or otherwise become inactivated. Many Associates, on the other hand, are regular participants in all firemanic

affairs and have high attendance records at drills and alarms. They are perhaps best defined as auxiliary, non-uniformed firemen who are deeply interested in the Department but who for one reason or another cannot meet all of the exacting requirements for full front-line duty.
