School Budget Down: Ice Storm Called Worst To Strike May Lower Tax Bill Borough; Residents Censure Ro'kl'd

Welcome news for the Allendale taxpayer was seen for the coming year when the local Board of Education tentatively adopted the 1953-54 budget on Tuesday night.

The budget that the board approved is \$114,900.00 against the \$123,038.32 of last year. The reduction was created by increases in state aid and using of \$4,677.76 of a surplus in Current Expense account.

Paradoxically, while the amount of money to be voted on for the school year is lower by \$7,123.44 this year over last year, the amount of money to be raised by the borough for January to June this year is greater than the first half of last year. This is caused by the changing of the school year budget to coincide with the boroughs calendar year. The amount of \$81,075 for July to December 1953 school operation, plus the balance due on the 1952-53 budget of \$66,827 or a total of \$147,857.44 to be raised by taxation this year as (Please Turn to Page Four)

TWO PROMOTED AT LOCAL BANK

At the organization meeting which followed the annual meeting of the stockholders of the First National Bank of Allendale on Tuesday, Edward Hamilton, former cashier was named executive vice-president and Alwyn Grossmann, former assistant cashier was named cashier.

The following directors were re-elected: S. M. Christopher, J. G. Christopher, R. J. Christopher, W. W. Weber and H. J. Winter.

Officers of the bank were elected as follows: R. J. Christopher, President; H. J. Winter and J. M. Christopher vice presidents; Mr. Hamilton, executive vice president and Mr. Grossman, Cashier.

Funeral services will be held tonight for Alice Wilson, wife of the late Harry Wilson and mother of Ardell Wilson, Hill side Avenue, at the Van Emburgh Mortuary Chapel in Ridgewood at 8 o'clock.

The Rev. Bayard Hancock will conduct the services. Interment will be in the Evergreen Cemetery Brooklyn, N.Y.

Mrs. Wilson died following a two year illness. She was 80 years old. She was born in Jersey City, daughter of William and Celia Mills, old-time residents of that community. Prior to coming to Allendale last August to live with her son, she had been residing in North Pelham, N. Y. Her husband died in 1920.

Surviving besides Ardell Wilson, is another son, Raymond of Yonkers, N. Y.; two granddaughters and one brother, John Mills of Jersey City.

Dr. Leo Schultz of Franklin Turnpike is away on vacation. He will return to Allendale February 1.

AN EDITORIAL LET'S BE SURE OF OUR FACTS

The storm that caused the wires to break and sizzle last week were matched this week by the tempers of those without electric power. In some instances for six days. It is hard to understand why or how the repair men work or why they can't arrange emergency hook-up until poles and wires can be replaced.

Right now petitions are being circulated to the effect that the public is not being served adequately by the Rockland Electric and the signers want Public Service to take over.

We hold no brief for either company and we do believe that the utility company does owe something to the consumer public to keep their equipment in repair as quickly as possible. Whether Rockland Electric did this is something we don't know. We do know they had a terrific job to do all over the area where they serve. We know they pulled men from other communities not so badly hit to help in those areas most badly hurt. We don't know if they brought enough men to really do the job as quickly as possible or not.

Did Rockland refuse to pay overtime on Sunday as it is rumored? Could they have hired crews from Public Service sooner than they did? We do think it is up to some one like the Public Utility Commission, which is qualified to know, to pass judgment.

We would like to suggest that the Mayors of nearby communities get together and find out. Allendale can very easily be the leader of such a body to present to the commission their findings and if Rockland was negligent then make such a recommendation for a change. But until someone is in a position to know all the facts we would like these wild rumors of irresponsibility on the part of the company to simmer down to facts.

With heat, lights and telephone service restored to normal, most Allendale residents can look back on the week's tribulations philosophically.

As one resident summed it up, "After all, it was only for a few days, and you've got to admit that most of the year this town has pretty good weather."

SIX YEAR OLD FOUND SLEEPING UNDER PORCH

Six year old Werner Maluta, reported lost to the police at 7 o'clock Wednesday evening was finally found at 1:40 a. m. asleep under the porch of the George Wilson residence after an extensive search which involved the County Police, Ramsey Police, the Allendale Auxiliary Police and the help of residents of the Borough.

Patrolman Frank Parenti was on duty when the call came from Werner's mother, Mrs. Peter Maluta whose home is at the end of the drive behind the George Wilson residence on East Crescent Avenue. Mrs. Maluta reported that Werner had gone to the home of Mrs. D. Anderson on Dale Ave. to play after school.

Mrs. Anderson told police she had returned Werner to the front of the Wilson home at 4:30 in the afternoon and had watched Werner start in the drive toward his home.

Officer Parenti's first action was to check the home of Werner's friends but after contacting 30 residents, he concluded additional help would be needed. A radio alarm was sent out through the Hackensack Police (Please Turn To Page 8)

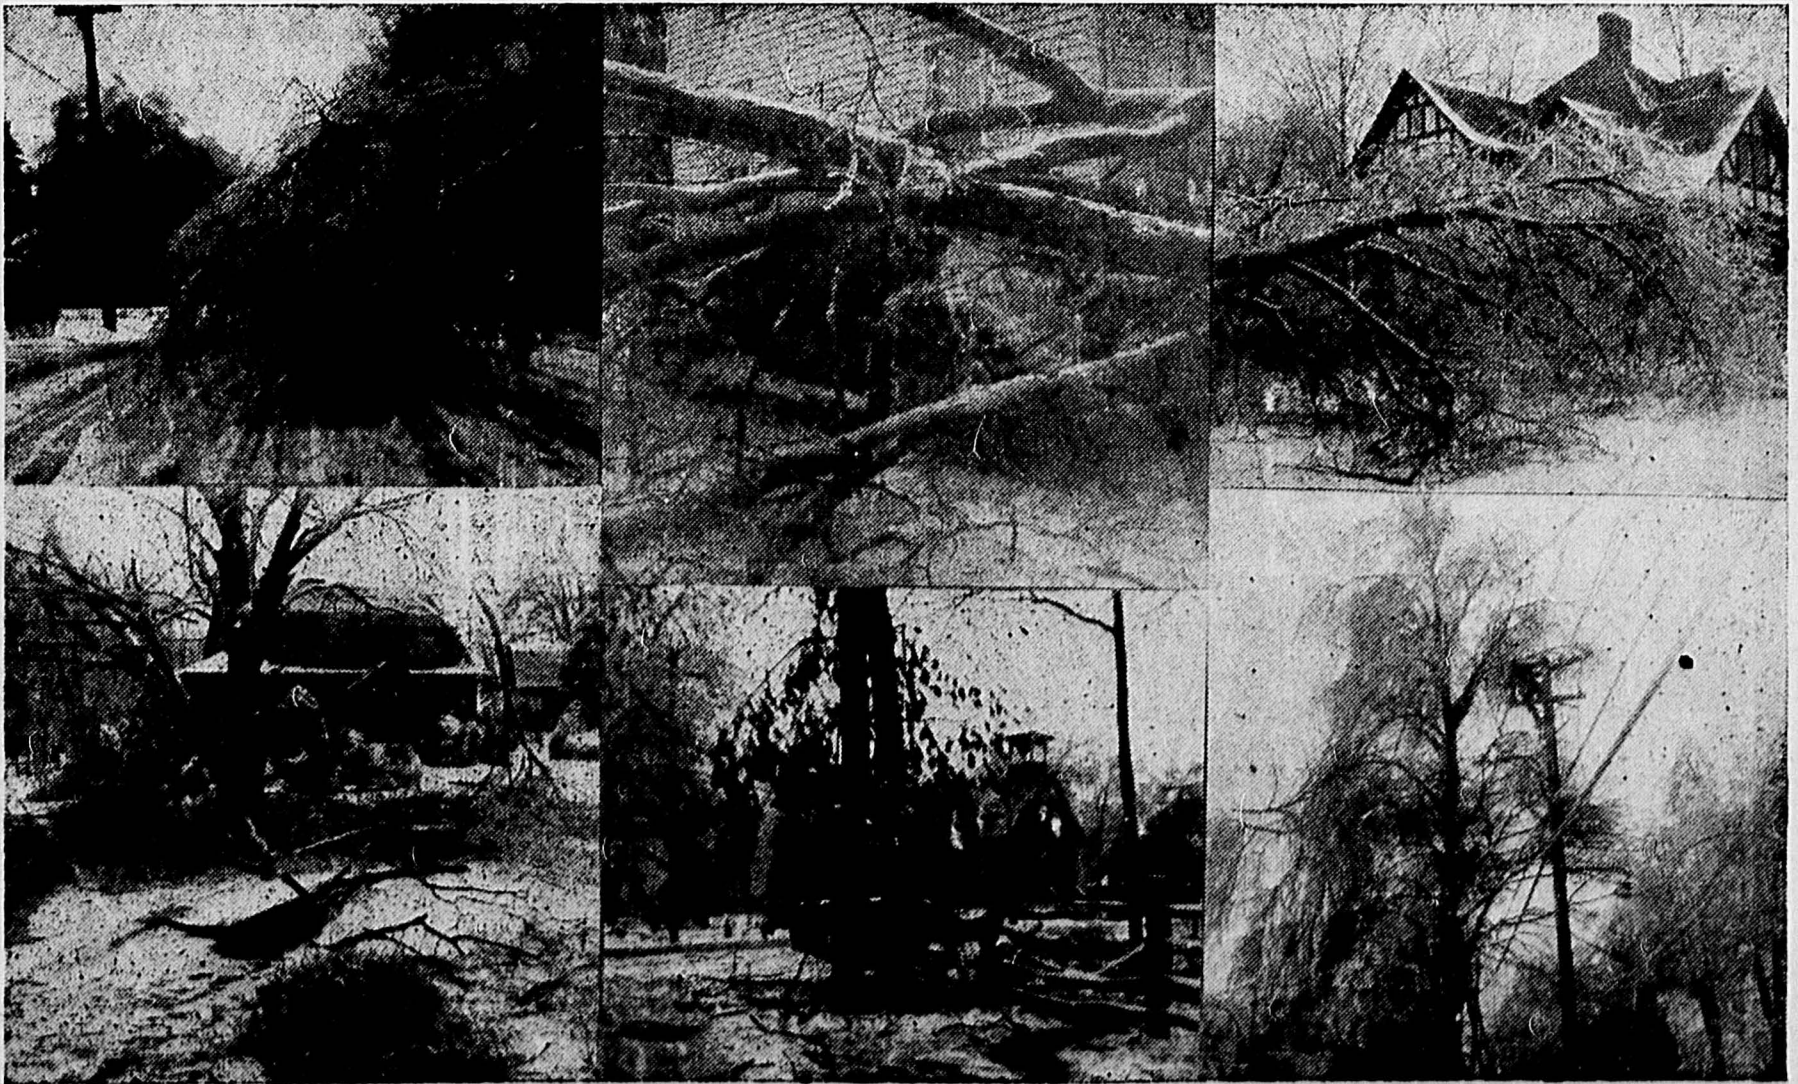

Damage to the town in the form of broken and fallen trees can hardly be estimated. Only next summer will the full effects of the storm be known to residents who listened on Friday night to the cracking of branches and sharp reports of falling trees.

By midnight, last Friday the main power wires into town had collapsed under the weight of accumulated ice and broken trees. The town was in darkness for 1, 2, 3, 4, 5, 6 - days depending upon the area.

Electrical service was restored to the pump house which serves the town water supply before there was a danger of a water shortage. Myrtle Avenue and Franklin Turnpike residents, along with three-fourths of the downtown business area were the first areas to get back their electric power. After electricity had been restored, the telephone men were quick to get phones back in service.

Outlying areas and side streets were the last to be served. In many cases, individual wires to homes had broken and this compounded the difficulties for the line men.

Old-time neighborliness however, came in for a revival last weekend as residents consulted one another on ways to keep (Continued From Page Five)

Pictures taken of a small part of Allendale which will tell the story of the destruction caused by the storm. Top row, left to right, Dale Avenue tree covered the road. Car on Maple St, crushed

by falling limbs Home on Powell Road. Bottom row, Walter Dunsby home on Crescent Avenue, Corral on Elm St. and the Turnpike damaged. Men up on pole repairing damaged cross arm.

DELEGATES TO ATTEND CONFAB

A special meeting of all the lay delegates and alternates to the special convention of the Diocese of Newark will be held Friday evening, Jan. 16, at 8 p. m. in the Cathedral House, Newark.

The Special Convention has been called to meet Jan 27 for the purpose of considering the election of a Bishop Coadjutor for the diocese. The purpose of the Jan. 16 meeting is to present the lay delegates and alternates with as much information as possible about the individuals whose names have been proposed as candidates for Bishop Coadjutor.

The delegates to the Sepcial Convention from the Church of the Epiphany are: Miss Gladys Pell, Mr. William F. Anderson and Mr. John Doty. The alternates are: Mrs. William Bishop and Mrs. William Quaintance.

MAGIC WORDS 'NO SCHOOL' GETS AROUND

The word that there would be "No School Tomorrow" spread like a prairie fire throughout the town on Sunday afternoon. Despite the fact that few homes had radios working or telephones in service, the grapevine method carried the news so successfully that only two students came to school Monday morning.

Principal Paul O'Connor reported that he was most gratified that the short notice announcement had circulated so well. He said he and members of the school board decided to close the school on Monday as a safety measure because of the number of live wires that were down on the streets surrounding the school. Also, Mr. O'Connor said, an extra day would allow the Road Department time to clear away the broken branches and fallen trees and thereby assist the repairmen.

Mr. O'Connor said that he had no idea how the word would travel because the usual methods of communication had been interrupted. However he followed the usual routine of notifying the radio stations that broadcast school news and called as many of his teachers as he could reach—and hoped for the best. He was most surprised, he said, that only two showed up.

"Those two," Mr. O'Connor said, "came by car and we were able to tell them the news at the door. It all worked out much more smoothly than we expected."

VFW AIDS COUNTY HOSPITALS WITH \$\$\$

Bergen County volunteer hospitals, orphaned children and hospitalized veterans will be the beneficiaries again this year of the Community Services Program of the Bergen County Council, Veterans of Foreign Wars.

County Commander Charles Ulz announced today that proceeds from the annual Bergen County Home Show, which the VFW sponsors each year at the Teaneck Armory, will be used as in 1952, to aid hospitals, veterans, and orphans. He

said that last year a total of \$7,800 was expended for these purposes. Equipment was purchased for Englewood, Hackensack, Holy Name, Hasbrouck Heights and Valley Hospitals. In addition, the VFW entertained 270 orphaned children at an outing at Palisade Park, and the VFW also donated medical supplies to the Christian Orphan Home in Fort Lee, and purchased refreshments and cigarettes for wounded war vets at Lyons and Menlo Park hospitals.

The 1953 Community Service program was launched recently, Ulz said, by the purchase of a shuffle board table for the East Orange Veterans Hospital. The presentation was made by August J. Hannibal, Jr., Past Department Commander, Joseph Boratto, District Commander; Philip Kenny, Senior County Vice Commander, and Ulz.

"The proceeds from the annual Bergen County Home Show make possible our program to benefit the sick, wounded and the orphans", said Ulz. "We plan not only to continue this program, but to widen its scope."

County Hospital Treat Record Numbers In '52

The everlasting battle between life and death waged in hospitals was dramatized in the annual report for 1952 recently made public by officials of Hackensack Hospital.

Weighted against 504 patient deaths, less than one a day, were 2,652 births for the year, an average of 7 each day. In the maternity department, not a single maternal death was recorded, and only 1.8 percent of the babies were stillborn. Thirty pairs of twins arrived at the hospital during the year.

The hospital's emergency room treated 4,449 cases in 1952, better than 12 a day. While some were minor, many were extremely serious. The handling of peak loads, when victims of highway accidents are brought in have posed special problems which the medical board and the traumatic and orthopedic departments of the hospital are working to solve. There were 804 highway victims treated in 1952, 98 more than in 1951. Only 539 calls were answered by the hospital ambulance, due to the addition of many volunteer ambulance groups in communities served by the hospital.

Members of the surgical staff agree that the Post-Anesthesia Room inaugurated early in the year, which has already handled 1,725 surgical cases, has been very successful. Patients

are cared for in this specially equipped and staffed room during the period immediately after surgery when the patient requires careful observation and extra attention.

In all, 7,011 surgical operations were performed in 1952, 2,879 of which were major operations. Medical cases during the year numbered 2,623. An average of 254 intravenous transfusions have been given daily. There were 133,846 pathological analyses made, 1,728 electrocardiograms, and 9,352 X-rays. The hospital pharmacy filled 3,425 prescriptions monthly.

COUNCIL HEARS 1952 FIRE DEPT. REPORT

Fire Chief Martin Wetter-aw submitted his year end report to the Mayor and Council last Thursday night. His figures show that during the year fires, 2 barn fires, 2 car fires, 19 brush fires, 12 still alarms and 3 false alarms.

The department also conducted 26 drills during the year.

Marguerite B. Dillon

A Requiem Mass was celebrated Tuesday morning at St. Luke's R. C. Church, Ho-Ho-Kus for Mrs. Marguerite B. Dillon of 43 W. Allendale Avenue, who died last Friday after a brief illness.

Mrs. Dillon was a retired employee of the New York Telephone Company and had made her home for several years with her niece, Mrs. Cyril Collyer of Allendale.

Funeral arrangements were made by the Harold Van Emburgh Funeral Home in Ramsey. Interment was in Maryrest Cemetery, Darlington.

Mrs. Dillon is survived by five sisters: Mother Mary Lucy of the Convent of the Holy Child, Portland Oregon; Mrs. Mary Toomey of Allendale, Mrs. Catherine Condon of New York City, Mrs. Florence Montanye of Baltimore and Mrs. Gertrude Ham of New York City, and one brother John H. Crosby of New York City.

CHILDREN'S SPEECH TO BE TOPIC OF PTA MEETING TUES. NITE

Mrs. Ardel Elwell will speak before the membership of the PTA Tuesday evening at 8:30 in the school auditorium on the subject "What is Good Speech Education for your Child."

Mrs. Elwell is well qualified to speak on the subject since she has made speech work her career and is currently an instructor in speech fundamentals and correction and the language arts at Paterson State Teachers College and is continuing her study in the advanced school of Columbia Teacher's College in New York City.

Educators agree that interrelation of speech difficulties found in the pre-school and elementary school youngsters is a complex matter.

Experts have discovered that often speech difficulties arise from a physical handicap, or inability to hear, or a mental

Transportation, \$500. Repairs and replacements, \$3,550. The entire board approved the budget. A lengthy discussion as to how much surplus was to be used was held before the amount was set. Mr. Helmut Falcke was an interested spectator at the meeting.

He asked the board to take a "substantial amount out of the surplus."

Archie Farrell will be chairman of the election board on Feb. 10 assisted by Edward Grossman, William Anderson and George Wehner.

The budget took the greatest part of the meeting. A possible revision in the arithmetic course at the school may be made when the teachers complete study of new text books was reported by Mrs. Geismar.

Window screening for both the cafeteria and manual training rooms was ordered. A study of the sky lights with a possible change to a solid roof to avoid future leaks will be made.

The board learned the insulation work undertaken last summer has resulted in a fifteen per cent saving in estimated fuel costs. This figure was shown in the new budget.

The prospect of better service in the cafeteria was seen when the board ordered new facilities and a steam table to cost \$700.

All members of the board were present, James Stranding presided.

Board of Education, Allendale, N. J. In accordance with the provisions of Chapter 201 P.L. 1943, the Board of Education of the School District of the Borough of Allendale, Bergen County, New Jersey, has prepared a tentative budget for the school year 1953-1954 which is published in detail herewith.

It's An Ill Wind That Blows

As this is written, Allendale is just staggering to its feet after the worst storm, from the standpoint of homes and families affected, in its history. Fortunately, no one was injured but untold damage amounting to many thousands of dollars followed in the storm's wake.

As we toured the borough last Saturday, we were impressed with the friendliness of everyone toward their fellow sufferers. Families with heat were taking in others not so fortunate. Babies and sick people were being cared for as best they could be.

It is hard to imagine any good coming from such a disaster but we can, and that it is the proof of what we have been saying from time to time of how inadequately we are prepared for emergencies. We have become so dependent upon the utilities that when something like the storm we had occurs, we just stop functioning as a town.

We don't believe that we in Allendale will ever suffer from a deliberate attack but suppose we were. No electricity, no water, no communications

It is high time we took stock of our provisions for such an emergency or disaster. Archie Farrell will be calling meetings to get a program started. It is up to each of us to volunteer to serve in some capacity.

Storm Worst In Borough's History

ROCKLAND CLAIM SERVICE IS BEST UNDER CONDITIONS Stung by the complaints that have been pouring into the Ramsey office of the Rockland Electric Company since last Friday, Edward Abrams, manager of the branch office stated last night that the company was doing and had done everything possible to restore power to Allendale homes.

Mr. Abrams stated that crews had been brought from all over the parent company to aid this area, but the job was an enormous one that will cost the company \$200,000 plus the loss of revenue caused by darkened homes.

Mr. Abrams stated men can work no more than 16 hours according to the unions, but this was set at 19 hours during the emergency. He said it was very dangerous for the men to work any more than that.

Mr. Abrams stated men can work no more than 16 hours according to the unions, but this was set at 19 hours during the emergency. He said it was very dangerous for the men to work any more than that.

Most of the time the Ramsey phone was busy when irate homeowners tried to reach the office this week. This was caused by so many calls pouring in to the office that they were unable to handle them.

The one bit of light that never went out was the Christmas tree in the center of town. At 2 a.m. when the town was in total darkness, the streets strewn with fallen branches, and hot wires spitting sparks, the Christmas tree and the smaller trees on the lampposts burned brightly through the night.

Mrs. George Albert, Dale Avenue, entertained a number of guests at a dessert bridge Tuesday afternoon. Those who attended were Mrs. Werner Baarek, Mrs. Harvey Beswick, Mrs. David M. Colburn, Mrs. James E. Webb, also Mrs. E. Kenneth Burger of Wyckoff and Mrs. Roland Schuler of Saddle River.

REPAIRS & REPLACEMENTS Building & Grounds 2,715.32 6,000.00 2,475.00 Educational Equipment 1,284.49 700.00 1,000.00

Their speedy arrival plus their efficient handling of the fire were praiseworthy, but we

RESIDENTS CLAIM ROCKLAND SHOULD BE OUSTED HERE

Irate housewives, exasperated with their inability to get satisfaction from the Rockland Electric Co. in having electric power restored to their homes after 5 days of darkness, finally resorted to sending a wire to Governor Alfred E. Driscoll. They sent the following wire, Governor Driscoll.

Mr. Byrnie said that service would be expected and reported that a group of Public Utilities officials had made an on the spot check-up on Allendale at noon on Wednesday.

When the men of the town returned home on Tues. night to cold, dark homes and learned of their wives' actions, several of them got together to determine the best course to provide better power service in the town.

Mr. Byrnie said that service would be expected and reported that a group of Public Utilities officials had made an on the spot check-up on Allendale at noon on Wednesday.

The undersigned residents of the Borough of Allendale hereby petition the Mayor and Council to take such necessary steps, legal or otherwise, to the end that the franchise granted Rockland Electric Co. be revoked. This petition is unfortunately necessary because of the failure of the Rockland Electric Co. to provide reasonable emergency repairs comparable to those effected in adjoining communities.

Sigmund Hadel of 26 Homewood Ave. originated the petition. He received permission from Mayor John Tucker to circulate and then turned it over to the women to get signatures. Mrs. Harold Osborne, E Allendale Ave. was in charge of obtaining signatures. Her lights came on at 8 p.m. Tues.

were especially pleased at their consideration shown for our furnishings in the rest of the house. Since we feel all Allendale residents should realize what splendid volunteer firemen they have, we are sending a copy of this letter to the Allendale Press for publication.

Sincerely yours Arrol G. Asp

To The Editor: Our entire family would like to thank Fire Chief Martin Wetterau and members of the Fire Dept. as well as the Police Dept. for the splendid service rendered us on the occasion of the fire on our home last Sunday.

School Notes

KINDERGARTEN NEWS MRS. BAXTER

We all had a wonderful Christmas vacation, but were very glad to get back to school again. Each one of us took a turn to tell about his or her most important Christmas gifts. Evidently Santa Claus was very good to everyone.

Beginning this month many of us are going to be six years old before long. Join Vesper, Jay Ritter, Dick Lane, Sheryl Grossmann, Margaret Schust, and our twins, Kathy and Trudy Crinkley have birthdays this month. Jay's and Dick's are on the same day.

Just before Christmas John Ryan moved to Midland Park. We were so sorry to have him go, and we miss him. Today we had an addition to our family. Dorothy Farnan arrived from Fair Lawn and we are delighted to have her with us.

GRADE THREE MRS. AMOS

We all enjoyed our Christmas and New Year vacation. We told stories in English class about our favorite Christmas presents and took them to school to show our classmates.

We were glad we had some snow so we could enjoy playing in it, sleigh riding and skating during our vacation.

We bought a View Master

NEW YEARS RESOLUTIONS

By TONI WOODWARD—ANS Features, Beauty Editor
OUT WITH THE OLD YEAR and in with the new... calls for new resolutions from us to you. Your first one, we believe, should be this bright ditty for '53.

"Always groom yourself as though you're meeting your best beau." With this in mind the year through, even if all other good intentions fall by the wayside, your hair will be smooth as silk, your skin soft as a petal and your body fresh and clean as a daisy.

Cleanliness, of course, is the first rule of good grooming, for glamour is nil without it. At least a bath a day, and a good deodorant is a "must," too often forgotten during cool winter days. There's a gentle new Fresh moisture-control deodorant that not only stops underarm odor completely, but checks it longer. It's as creamy soft and extra gentle as the old one, yet keeps the skin dry—you and your clothes safer.

Because you perspire all over, it's a good idea to bathe in Fresh Deodorant Soap to stay "Bath Fresh" all day long. This is a fragrant, foamy soap that cleanses the skin thoroughly at the same time it banishes the bacteria that causes the perspiration odor—a beauty bath, too, for it washes away germs that cause the skin blemishes to boot.

We can't praise this soap too highly on the excellent job it does of reducing the possibilities of skin infection and other externally caused skin irritations. It

rived some time during the holiday. The group is making a bulletin board which will be fastened to the south wall of our room along with our new black board.

CLUBS TO COLLECT CLOTHES FOR KOREA

Clothing for the children of Korea will be collected during the month of January by the three Woman's Clubs of Allendale. The project is being directed by Mrs. P. B. Hamilton of 82 Elmwood Avenue. Mrs. Hamilton said that a box is in the post office for collection of children's clothing for children between the ages of 2 and 12. A second box for clothing is on the front porch of Mrs. Hamilton's home.

If any person has suitable clothing and wishes to make a contribution but cannot get their clothing either to the Post Office or Mrs. Hamilton's house, they are asked to call Mrs. Hamilton at Allendale 1-3062 and arrangements will be made to pick up the clothing.

Mrs. Hamilton asked that all clothes be clean and in good condition to make it worthwhile to send them to the needy children of Korea.

LITTLE LEAGUE MAKE 1953 PLANS

At meetings held in recent weeks the Turnpike Little League has been expanded and re-named the Ramapo Little League. Little League teams from Allendale, Franklin Lakes, Ho-Ho-Kus, Mahwah, Midland Park and Oakland will be entered. Former officials of the Turnpike Little League were re-elected to serve in their former capacities in the new organization. They are Cuff Caton of Ho-Ho-Kus, President, Bill Miller of Midland Park, Vice-President and Jack Crothers of Allendale, Secretary-Treasurer.

A twenty game schedule has been adopted with each team meeting every other team twice at home and twice on the road. All games are scheduled for 6:30 p.m. on Tuesday evenings and at 10 a.m. on Saturday mornings, with opening day set for Saturday, May 2nd.

Indications are that the new league will be stronger and faster, with competition at a high level. Enthusiasm in each of the towns represented is on the upgrade and it is expected that great interest will develop in the games as the teams battle for the league championship.

Plans are also under discussion for the formation of minor League and Tiny Tim teams and it is expected that regularly scheduled league games will be established for those groups.

All interested persons in the various towns entered in the league are urged to lend their assistance to the organizations supervising these activities in order to assure the league going over in a big way. Contact your local organization and lend a hand.

FIREMEN CALLED TO ONE FIRE DURING STORM

The Volunteer Fire Department of Allendale was called out only once during last week's emergency, but was ready for any eventuality. When electricity went off in the firehouse Friday night, arrangements were made for Fireman Bob Kaufhold to sleep at the firehouse overnight to sound the alarm if trouble came.

Fireman Kaufhold was relieved on Saturday morning by Fireman Harold Osborn. When telephone service to Fire Chief Martin Wetterau's home was discontinued, plans were made with the local police to send calls through to Walt Rumsey, Assistant fire chief.

An emergency system of notifying the firemen was worked out. On Sunday afternoon, when fire broke out behind the fireplace in the home of Harold Asp on E. Crescent Avenue, there was no difficulty in getting a sufficient number of firemen out to help.

The fire at Asp's was discovered and reported to the Police who summoned the firemen. Firemen quickly reached the scene and discovered fire eating away at the wall through

Republicans Vote Down Tucker's Appointment Of Borough Engineer

The name of Florio C. Job, one time Borough engineer for Allendale, was proposed by Mayor John Tucker to be Borough Engineer for the year 1953 but the appointment was defeated by the Council by a vote of 4 to 2. The regular Republican members of the Council voted "no" to the appointment made at a special continuation session of the regular Council meeting held Monday evening at the War Memorial Building.

Councilman Henry Cobb qualified his vote by saying that it was his understanding that the appointments of the Mayor were to be arrived at with the advice and consent of the whole Council.

"Since I only knew about the appointment 40 minutes ago, I don't feel justified in voting yes." "Therefore," Mr. Cobb said, "I shall vote no."

Councilwoman Helen Hanson qualified her vote by saying that since she had not known of the appointment until just before it was announced she too would vote no.

Councilmen Frank McCord and Elwood Critchley voted no.

The Mayor's support came from Councilman Perry Conklin and John Wattles. Mr. Wattles said that in as much as the Mayor had asked for time to consider the appointment, and since the Mayor had doubts in his mind about the reappointment of Harvey Beswick, he would go along with the Mayor and support his appointment.

As a result of the vote Allendale is still without a Borough Engineer. This situation will continue until the Mayor appoints an engineer acceptable to the majority of the Council. If the appointment is not made within 30 days, the Council will make the appointment.

Controversy over the appointment was made public at the regular council meeting held last Thursday evening. At that time Mrs. Hanson urged the Mayor to make known his choice of Borough Engineer because she said that the advice

the back of the fireplace. They had to tear down part of the wall and ceiling to reach the fire, but once this was done, Indian tank type extinguishers were used to put out the blaze.

Almost immediately after returning to the station the men were recalled to put out smoldering lumber.

Ass't chief Walt Rumsey reported that considerable damage was done to the interior of the Asp's home, but that he was gratified with the large turnout of firemen and glad that the fire could be put out before more serious damage resulted.

Frank McCord

and estimates of the engineer would be needed at the budget meetings being held this week.

At that time Mayor Tucker asked the indulgence of the Council in postponing the appointment. Without stating his reasons, Mayor Tucker said that some "doubts" had arisen in his mind about reappointing Mr. Beswick and he wanted time to study the matter.

Mayor Tucker asked the council to meet with him during the week to discuss the appointment but no suitable night could be found. The Council met Monday and Wednesday night on the budget and will meet again this evening. When no night could be found when members could convene, the Mayor suggested that the regular Council meeting be adjourned until Monday night at 8 when he would make known his choice for the office of Borough Engineer.

Following the business session of the Council meeting on Monday, Pat Job, brother of Florio said he would be glad to answer any questions regarding his brother's qualifications for the job.

Mayor Tucker however, was reluctant to have the qualifications of his appointee discussed and said "the motion is finished, and was turned down. I did try to prolong this appointment for further study. I am now perfectly willing to set down with members of the

Council and come to some agreement with them on a suitable person for the job."

Pat Job said after the Council meeting that his brother's qualifications were good. He stated that Florio was at present Borough Engineer for Little Ferry, his residence, and also for South Hackensack. For 6 years prior to the appointment of Mr. Beswick in 1950, he was engineer for Allendale.

"Florio has done work for the Port of New York Authority and the Bergen Sewer Authority," Pat Job said. "If his appointment had been voted on the basis of his qualifications," Pat Job said, "I'm sure he would have been approved."

LOCAL DRIVER IN CAR MISHAP

Last Friday evening when road conditions were most hazardous, a local driver on Franklin Turnpike directly in front of a New Jersey Bell Telephone truck driven by John E. McVeigh which caused him to stop short in order to avoid hitting the limb.

Willard W. Furman of 168 Mallinson St. was driving behind the truck. He applied his brakes but due to the icy condition of the road, was unable to stop. His car collided into the telephone truck causing light damage to his fender and headlights.

The Police did not prefer charges.

LIONS HEAR TALK ON PATERSON CLUB

Members of the Lion's club met last night at the Allendale Bar and Grill and heard a special talk on the work of the Wisemans Club of Paterson. Guest speaker was Morton B. Hushly of Wyckoff who told of the club's activities in behalf of underprivileged youngsters.

The meeting was well attended. A special guest at the meeting was Tom Korovesis, local shoe repair man.

PRESCRIPTION PRICES

How are prescription prices determined? We have a policy in this matter, the only one we can follow. We do not offer bargains in prescriptions — there is no cut-rate way to health. Nor do we pretend to under-sell. Prescription prices simply are determined by the cost of the ingredients and operating expense. The prices we charge are as low as satisfactory service and effective drugs will allow.

Keep Work Clothes Clean

By ANN GARY—ANS Features

SINCE CLEAN WORK CLOTHING IS A "MUST" to healthy living and working, frequent laundering is all important. It's also easier to deal with soil when it's fresh.

To prepare work clothes for the soapsuds in tub or machine, first turn pockets out and cuffs down and shake or brush out loose dust and dirt. Next mend rips or tears, and replace lost buttons.

Pre-soaping extra-dirty sections of work garments loosens dirt. Scrub on a thick layer of soapsuds where needed. Then roll the garment tightly for several hours before laundering. This gives the soap time to loosen deep soil.

Then treat stubborn spots and stains.

The secret is to soften the stain so soapsuds can go to work on it later. For grease, oil, tar, and pitch, scrape off as much as possible with the dull edge of a knife; if it's really stuck, rub lard or vaseline on to soften, and scrape some more. Then wash the garment as usual in thick, hot soapsuds.

If you catch it fresh, a lusty scrubbing with a well-soaped brush will get paint off. Sponge dry paint stains with turpentine; then rinse, rub rich lather into the spots, and finally wash the entire garment. Rust stains need lemon juice, salt, and sunlight. Repeat if necessary, and rinse in warm water before laundering.

For dirt streaks along neckbands and cuffs on work shirts and jackets, rub in a thick layer of soapsuds with a stiff brush. Roll such garments to keep the soap concentrated and let it work for several hours before putting them into tub or machine. The same trick works on dirty pocket edges and trouser cuffs.

Once you've treated stains, soak work clothes for 30 minutes in lukewarm water, adding one cup kerosene to five gallons of water. Then let hot soapsuds take over in tub or washer. Use a second batch of fresh suds if the first becomes dirty and "dead." The first washing softens up the dirt, the second really gets it out. Wash blue denims and other dark pieces separately. After rinsing, hang garments quite wet; smooth and pull them to shape, and you'll avoid much ironing.

Starch restores crispness to work clothes that are getting limp but still have a lot of wear in them. It also helps to "seal" the surface against dirt and grime so the next washing is easier.

Encourage your working man to change into clean work clothes often. This is an important health measure. Equally important to health and comfort is a complete change of clean underwear every day, and clean handkerchiefs to wipe eyes, face, or nose.

nated two sweaters and wool to the sweater collection being taken for children in Korea. For all those who wish to donate any sweaters in good condition to this drive, there is a box in Kaplan's Department store for contributions.

The next regular meeting of the auxiliary will be held next Tuesday evening at the home of Mrs. Carl Wehner, George Street.

WORKERS CITED FOR WORK HERE DURING STORM

"If you want to thank anyone for the work they've done for the town during the emergency," Councilman Henry Cobb said at the special meeting of the Council held Monday evening in the War Memorial building, "thank Pete Cauwenberghs."

Mr. Cauwenberghs, seated at the rear of the auditorium, who had been on road duty almost steadily for four days acknowledged the vote of thanks from the Borough Council but said that he felt the ones who also should be thanked were those men who worked as road crews Friday night, Saturday, Saturday night and Sunday.

In particular he mentioned Councilman Frank McCord who was out with the truck Friday evening and all day Saturday. Also Councilman Elwood Critchley who worked with Chris Ryan on the water department truck. And Councilman Henry Cobb who worked with Police Chief Robert Wilson and Patrolman Frank Parenti.

LOST BOY

Headquarters at 10 p.m.

Following that Chief Wilson, Jack Tackaberry and Marilyn Wilson started searching.

At midnight more men were called to help. Auxiliary police members Bernt and Nels Spilling, Bob Rich, William Short, Harry Goodrich and Police Commissioner Henry Cobb joined the search.

At 1:40 a. m. Chief Wilson and Officer Parenti spotted a boy's bright jacket under the Wilson's porch. Officer Parenti

called Henry Cobb who worked with Police Chief Robert Wilson and Patrolman Frank Parenti.

The auxiliary police members thanked by the town officials for their help. Harry Goodrich Jr., Bob Kauhhold, Bob Wilson Jr. and Frank Occhipinti who gave endless hours of service to the town in clearing the roads.

Walter Dunsby said that he felt the local police ought to be commended for their service to the town.

"I saw Bob and Frank out there with heavy gloves on cutting hot wires and I want to thank them," Mr Dunsby said.

Mayor John Tucker thanked all who helped in the emergency for their service to the borough and said that Allendale was fortunate to have men who would give their service willingly when the town was in trouble.

ti crawled under to find Werner curled up under his jacket sound asleep.

The police brought the sleepy boy out from under the porch. Werner rubbed his eyes as the police questioned him.

He listened but he told the Police he couldn't believe what had happened.

Mr. and Mrs. Melvin D. Long of Fair Lawn announce the birth of a girl, Leslie Elizabeth, born Jan. 7 at Valley Hospital. Mrs. Long is the former Dorothy Anderson, daughter of Mr. and Mrs. Clifford Anderson of 15 Midwood Ave.

We would like to publicly thank Everett Straut and his son for their fine work in providing us with electricity beyond the expected service.

A. G. ASP HEADS OBSERVERS HERE

Arrold Asp was elected president of the Holiday Observers for 1953 at the last regular meeting at the fire house. Vail Frost retiring president thanked the organization for the support it had given him during his term of office. He then turned the gavel to Bob Thomas, new vice president, as Mr. Asp was in Washington.

Mr. Thomas pledged a hard working new group of officers which included Dave Cooper as treasurer, Bob Morton as recording secretary and Brad Rhoades as corresponding secretary. All officers took over their new posts replacing Norm Critchley who has served as Observer treasurer for many years, Dan Morse and Victo Cotz as secretary. A vote of thanks was extended to the retiring officers for a job well done.

The ice storm caused a postponement of the "mopping up" operation on the Xmas decorations last Saturday until this Saturday at 10 a.m. Fortunately the Xmas tree lights have heled illuminate the town during the "dark" days this week with the regular town lights were out of service.

SCOUTS ANNUAL CHARTER NIGHT

January 19 at Archer Hall, home of troop 59, the presentation of the annual troop charter will be made by Mr. William Edwards our district commissioner.

Rev. H. Goodrich, head of the sponsoring institution will open the meeting with the invocation. The troop committee will conduct the program.

There will be induction of new scouts, advancement and service awards. Entertainment and singing followed by refreshments.

Troop 59 is one of the oldest troops in Bergen County. It was first organized in Jan. 1917 by Mr. Robert A. Phair who served for two years. Since then we have had 14 Scoutmasters who have served with great credit to the Community. The present Scoutmaster is William Buhlman. Mr. Buhl these boys are at present at W.

The meeting of Circle 1 of Archer Church was postponed from Monday night to Wednesday afternoon, January 21 because of the electrical power failure. The meeting will be held at the home of Mrs. Mabel Mikus on Elmwood Ave.

Mrs. Fred Hegerman, president of the Allendale Legion Auxiliary attended the County Auxiliary meeting Tuesday afternoon held at Legion Post 48 in Rochelle Park.
