Judge Proctor will hand down his decision sometime within the next two weeks. He asked for more time to review the briefs of Attorney Albert Scafuro, counsel for the two Council members and Attorney Ralph Chandless counsel for Mr. Job.

Attorney Scafuro reported that usually a Superior Court Judge hands down a decision at the time of the hearing, but during the summer months when other courts are not in session the Newark court has to overload its schedule which did not permit the Judge time to read the briefs on the case, prior to the hearing held Tuesday.

Sanitation at Recreation Park

The last ten days of stifling heat has dried up our lawns, shortened tempers and caused everyone a great deal of discomfort but not the hundreds of youngsters who had the time of their lives at the local swimming pool. We are indeed fortunate we have such a marvelous place of recreation available for our youngsters. The volunteer workers, who for so many years, gave countless hours to make the pool a reality must derive a great deal of personal satisfaction from the happiness their work gives every summer to our families who enjoy the facilities of the pool.

Now that the borough has taken over the operation of the pool it is in a position to have improvements made that were a little too ambitious for volunteers. One of most needed is adequate sanitary facilities. The "Chic Sales" now in use are totally inadequate and present a serious sanitary condition.

We understand the organization planning to hold a horse show in October has arranged to erect two suitable buildings large enough to provide room for dressing, benches for each side and a neat exterior that will be a thing of beauty. Possibly these ideas are too expensive for the horsemen who are donating the buildings, but certainly the idea of a neat building can be in their mind for the final step that possibly the borough will have to complete.

If for some reason the promised buildings are not erected, the budget for next year should certainly include this item and work started long before the summer season of 1954 so as to insure that this is the last season for the present sanitary facilities.

In the meantime we suggest parents ask their children to treat the facilities of the pool as they would their own home. We often wonder how children from nice families misuse public property. Some nights after the pool closes the present buildings are a disgrace and it is hard to believe that out children would have caused it. It is unfair to expect our limited public employ-ees to keep these facilities clean and sanitary if we, the parents, won't at least help by making sure our children respect public property.

THE SCREEN DOOR SLAMS, the hallway shakes and fast travelling feet head straight for the kitchen! Yes, the ball game on the corner lot has come to a halt while the team heads in the direction of a hefty snack to see them through the remaining innings. And the snack that's sure to be a hit is one that will cool them off and fill them up fast, like these super-deluxe banana splits "sauced" with mellow-smooth Log Cabin Syrup. The kids will love to build these superstructures themselves, and the part they enjoy most is "tampering with the toppings" so be sure to have a variety on hand

MAPLE BANANA SPLIT 1 banana, cut in quarters 14 cup Log Cabin Syrup
